Ethidium Bromide Waste Guidance (including other common fluorescent dyes)

Stock Solutions
- < 10 ug/ml Conc.
  - If on Septic System (typically farms & Stations)
    - Collect for Disposal Through REHS
  - If discharge to City Sanitary System
    - Drain Dispose
- > 10 ug/ml Conc.
  - Collect for Disposal Through REHS

Buffer Solutions
- < 10 ug/ml Conc.
  - If on Septic System (typically farms & Stations)
    - Collect for Disposal Through REHS
  - If discharge to City Sanitary System
    - Drain Dispose
- > 10 ug/ml Conc.
  - Collect for Disposal Through REHS
  - Filter to < 10 ug/ml
    - If on Septic System (typically farms & Stations)
      - Collect for Disposal Through REHS
    - If discharge to City Sanitary System
      - Drain Dispose

Gels & Contaminated Debris
- Any Concentration (non-sharps)
  - Collect for Disposal Through REHS

< 10 ug/ml Conc.
- Drain Dispose

> 10 ug/ml Conc.
- Collect for Disposal Through REHS

Collect for Disposal Through REHS
